- EPDM RUBBER ROOFING
- HIGH SECURITY UPVC FRENCH DOORS AND WINDOWS
- HIGH SPEC FINISHED BAR

- 10MM LAMINATE FLOORING
- FLATSCREEN TV

## 2017's HARDEST WORKING TRADESMEN: WINNERS

1<sup>ST</sup>  
PRIZE

MAN CAVE WINNER

**THE WINNERS STORY:** "Eight weeks ago I started my own electrical company, however, I do not have the cash to bankroll it so I have kept my day job. Working all day to pay the bills and then using my free time to focus on my own electrical company, often taking jobs on the weekend. I have not had a day off since I started and it would be a blessing to have a man cave to escape from the stress, it would also give me somewhere to store my Milwaukee® tools (keeping the wife off my back). P.S I attached this picture just to prove electricians do clean up! 😊"

Dear Milwaukee® Revolutionaries,

10 years into the M18 cordless revolution it has been our privilege to drive relentless investment in the cordless future of professional user productivity, being obsessed with putting you and your application requirements first as well as giving you the vision of 100s of cordless tools tied into one system and the confidence for you to rely on all future products remaining fully compatible on the same battery platform so you can maximize your productivity and minimize your cost.

We have had 10 years of back to back breakthroughs such as being the first to use microchip processors in intelligent cordless drills and batteries, our REDLITHIUM-ION™ battery technology which allowed users to work harder, faster and longer, the M18 FUEL™ system which unleashed an unprecedented cordless performance and our ONE-KEY™ platform which introduces the connected user to the digital jobsite. Read in this HDN how we go to new “Places” with ONE-KEY™ and how we have reshaped the construction by successively challenging and replacing generator and compressor driven power tools.

Against the competitive vows that you cannot get more out 18V anymore we invite you in this Heavy Duty News to experience the next breakthrough in M18 FUEL™ cordless technologies. The 3rd generation of what started it all, the new M18™ Percussion Drill and Impact Driver. The drills are up to 35mm shorter, 100g lighter, up to 60% more powerful under load and deliver up to 2x the application speed of our leading competitors. The new FUEL™ impact driver has 30% faster driving speed, is 12mm more compact and delivers up to 25% more power at 226NM.

The next breakthrough lies in what powers it all: The new M18™ HIGH OUTPUT™ 12AH REDLITHIUM-ION™ battery is the most powerful and highest capacity battery pack Milwaukee® has ever made. The first 216WH 18V pack is 50% more powerful than the existing 9Ah pack, runs 50% cooler, even in freezing -28°C (!) and can easily deliver more than 33% extra run-time dependent on the tool and the application. This is made possible by advancements in the mechanical design and the chemistry of the new high power cells as well as advancements in the power and temperature management capabilities of the new REDLINK PLUS™ electronics and the new pack construction.

I invite you to explore In these pages all of the new M18 FUEL™ tools. The first M18 FUEL™ circular saw to outperform 1600-1800W AC premium end, delivering 750 cuts in 2x4 on a single charge with the new 12AH HIGH OUTPUT™ RLI battery pack, do you need any more? The new M18 FUEL™ Super Sawzall® from the people who invented the Sawzall® 67 years ago is the most powerful Sawzall® Milwaukee® has ever made. Period. Cordless or corded, end of sentence. Milwaukee® taught cordless how to grind with the M18 FUEL™ small angle grinder, well, we are doing it again with the world's 1st 18V 230mm Large Angle Grinder running on one single battery, making it up to 1.5kg lighter with up to 15% more run-time than 36V competitors. Milwaukee®'s first ever full-sized table saw is cordless! The 1st in 18V it cuts up to 190 meters of linear OSB sheets on a single battery charge with the M18™ HIGH OUTPUT™ 12Ah pack. And finally, stay and react, the world's first M18 40cm, 6000 rpm high speed chainsaw that outperforms a 44cc petrol saw and does up to 150 cuts in 150x150mm construction timber on 1x single M18 HIGH OUTPUT™ 12Ah battery charge. ....And this is just the tip of the iceberg of what you can expect from M18 FUEL™ in the future.

Whilst best known for cordless tools, Milwaukee® is also the Sawzall® blade innovator and still the #1 global leader 67 years later. This summer Milwaukee® delivers to you disruptive Sawzall® blade innovation with the introduction of the Torch™ with Carbide Teeth to cut more, faster and longer. The Torch™ with Carbide Teeth Sawzall® Blades feature an aggressive 7tpi design with an optimised carbide formula to tackle the toughest metal-cutting applications. These blades have 25% more carbide-per-tooth, bringing longer life and unmatched durability across a wide range of metal cutting applications. A cut above the rest is the new Carbide Hole Dozer Hole Saw. Armed with the Hole Dozer™ with Carbide Teeth, you can cut easily in high speed two times faster through Nail Embedded Wood, Stainless Steel, Cement board, Fiberglass and Plaster, whilst still getting 25% longer run-time and the longest life, vastly outperforming standard bi-metal hole saws and other similar carbide tipped solutions. You may also turn your eye to our new fast cutting contractor line of Milwaukee bi- metal holesaws suitable from 14 to 152mm diameter in metal, wood, plastic materials.

Milwaukee® will also add to its line of VDE (DIN EN/IEC 60900) certified screw drivers, thirteen new, tested to 10,000 volts and guaranteed to 1,000 volts, VDE pliers. These ergonomic, soft-gripped VDE pliers are fully forged with induction hardened cutting edges to cut the hardest materials and have precision machined joints for easy and effortless use and a non-reflective surface finish for maximum corrosion resistance.

Lastly, when it comes to bolt cutters, the durability of the jaws and bolts are everything!

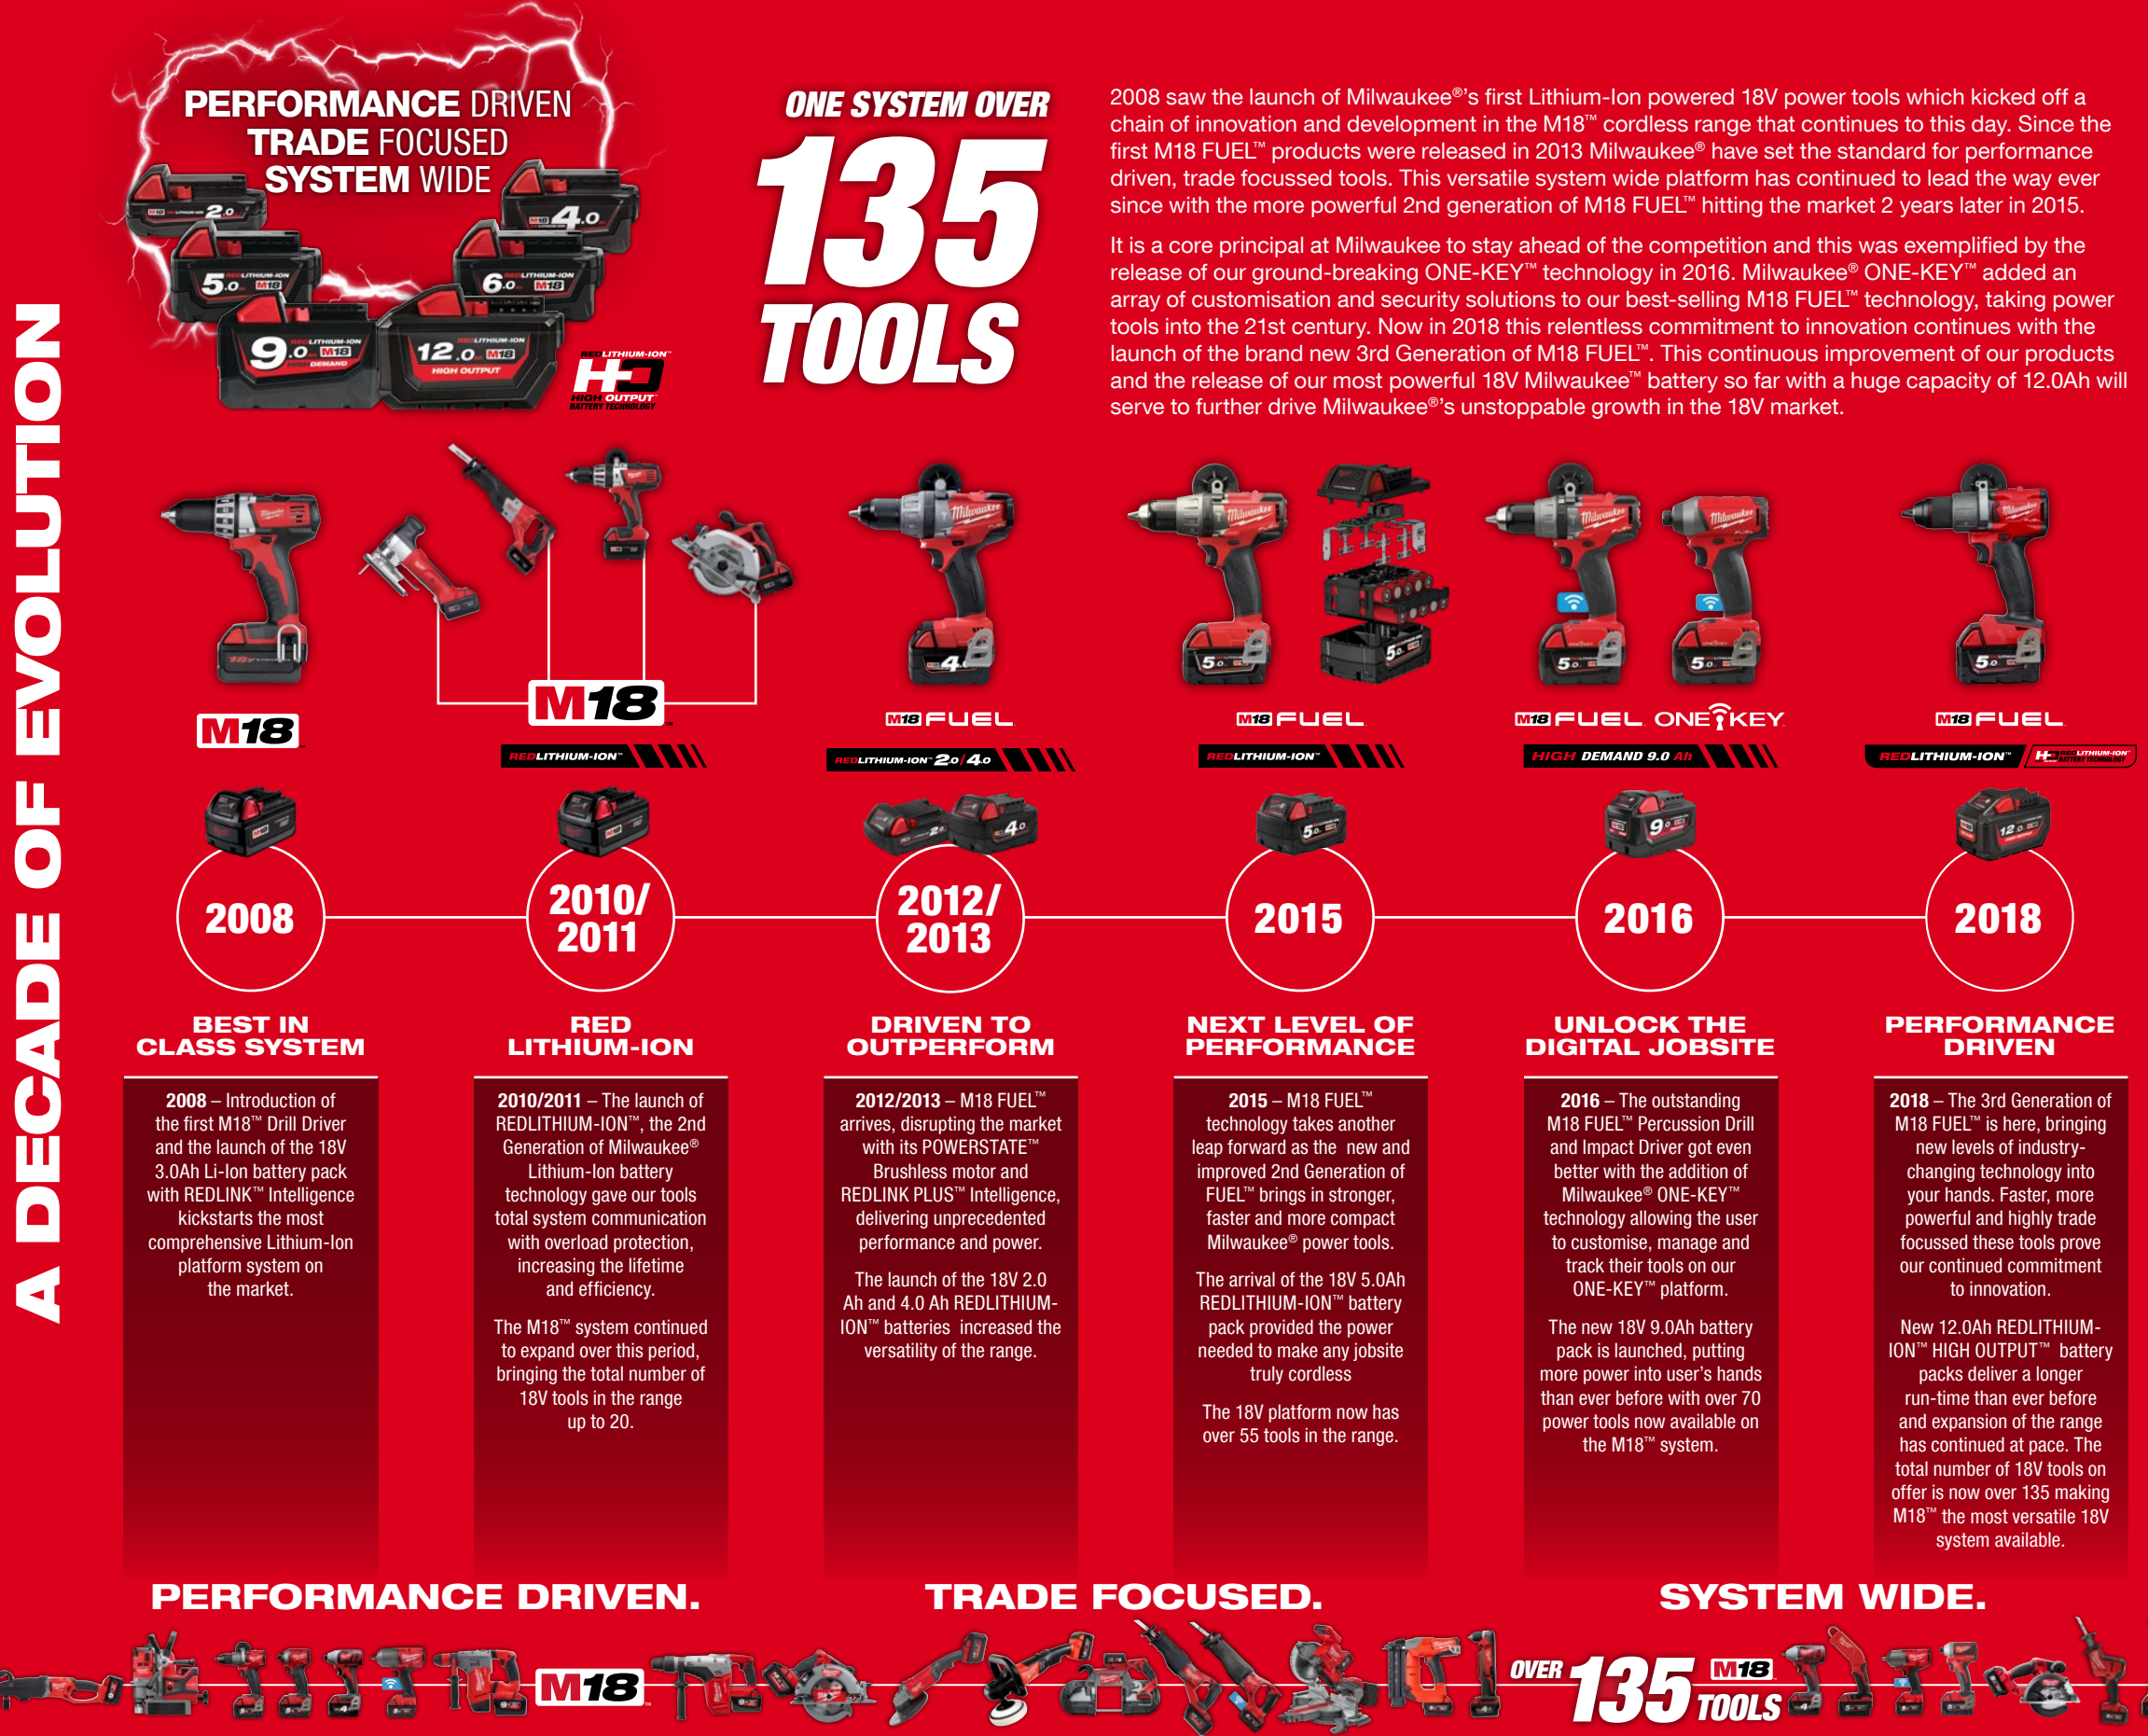

The new 360mm and 610mm Milwaukee® bolt cutters feature forged steel blades and bolts that won't loosen – translating to more cuts and longer life. Also included in the line-up are two adaptable bolt cutters (360- 450mm and 610-770mm) with Powermove extendable arms for up to 30% more cutting power.

Whether Power Tools, Accessories or Hand Tools, at Milwaukee® your productivity needs will always be at the centre of our attention to continuously drive new innovations to your job-sites and to ultimately improve your performance!

## M18 FUEL™

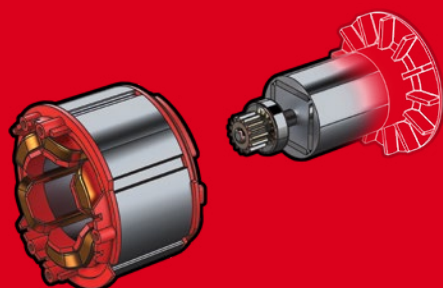

### PERFORMANCE DRIVEN REDESIGN.

M18 FUEL™ is engineered for the most demanding tradesmen in the world. M18 FUEL™ delivers extreme performance in a compact structure and features three Milwaukee® exclusive innovations - the POWERSTATE™ brushless motor, REDLITHIUM-ION™ battery pack and REDLINK PLUS™ intelligence hardware and software - that deliver incredible power, run time and durability.

Simply put, M18 FUEL™ offers the best, full circle technology that drives, protects and powers your cordless tools.

## 1 POWERSTATE™ BRUSHLESS MOTOR

- Milwaukee® designed and built brushless motor
- Provides increased efficiency
- Lasts longer and delivers maximum power\*

**M18 FUEL SUPER SAWZALL®**

AVAILABLE  
SEPTEMBER

ABILITY TO CUT **150 PIECES** OF 290MM X 45MM PINE ON **ONE 12.0AH BATTERY CHARGE**

**FEATURES:**

- The M18 FUEL™ Super Sawzall® delivers the power to cut at the same speed as an equivalent AC reciprocating saw - with the ability to cut 150 pieces of 290mm x 45mm pine on one 12.0Ah battery charge
- Next Generation POWERSTATE™ Brushless Motor: This is Milwaukee®'s most powerful motor utilizing higher grade magnets and 175% more copper vs previous motors
- Next Generation REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery uniquely enhances the tool performance under load
- New REDLITHIUM-ION™ High Output™ 12.0Ah battery pack provides superior pack construction, electronics and fade-free performance to deliver the most work per charge than any other Milwaukee battery pack
- Orbital action allows the saw to clear the cut of debris giving a faster cut in wood materials
- 3000 SPM with a 32mm stroke length delivers fast and effortless cutting in a wide range of materials
- 5 variable speed setting from 1500 SPM to 3000 SPM to allow the correct speed to be set for the material being cut
- FIXTEC blade clamp for fast and easy blade changes without any key
- Durable metal rafter hang hook for work space management and safety
- Adjustable show for optimised use of blades
- Integrated LED light for workspace illumination

**M18 FUEL 230MM LARGE ANGLE GRINDER**

AVAILABLE  
AUGUST

THE WORLD'S  
**FIRST SINGLE 18V BATTERY OPERATED LAG**

**FEATURES:**

- The M18 FUEL™ Large Angle Grinder is the world's first single 18v battery operated LAG delivering the power to grind, lighter than corded tools and up to 68 cuts per Charge in 42mm stainless steel pipe
- Next Generation POWERSTATE™ Brushless Motor: This is Milwaukee®'s most powerful motor utilizing higher grade magnets and 175% more copper vs previous motors
- Next Generation REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- New REDLITHIUM-ION™ High Output 12.0 Ah battery pack provides superior pack construction, electronics and fade-free performance to delivers the most work per charge than any other Milwaukee battery pack
- Disc Brake slows the disc down faster for improved user protection
- Non-lockable safety paddle switch with line-lock-out function to prevent automatic start up
- Keyless guard - great cutting capacity and fast guard adjustment without using a key
- FIXTEC nut for tool-free disc Change
- Anti-vibration side handle for lower Vibration
- Removable dust screen to prevent debris entrance, prolonging motor life

M18 FUEL CHAINSAW

AVAILABLE  
SEPTEMBER

DELIVERS THE **POWER TO OUTPERFORM** ON THE MOST DEMANDING CHAINSAW APPLICATIONS VS. PETROL CHAINSAWS

FEATURES:

- The M18 FUEL™ Chainsaw delivers the power to outperform on the most demanding chainsaw applications vs. petrol chainsaws
- FUEL™ technology allows the saw to maintain speed in tough application without bogging down, giving it the ability to outperform petrol chainsaws up to 40cc
- Next Generation POWERSTATE™ Brushless Motor: This is Milwaukee®'s most powerful motor utilizing higher grade magnets and 175% more copper vs previous motors
- Next Generation REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- New REDLITHIUM-ION™ High Output 12.0 Ah battery pack provides superior pack construction, electronics and fade-free performance to deliver the most work per charge than any other Milwaukee battery pack
- High strength all metal gearing delivers best in class torque
- Variable speed trigger allows the user to have full control over the power curve, giving instantaneous throttle response to reach full speed in under one second
- All metal bucking spikes allows the user increased leverage when cutting
- No-spill oil reservoir with easy to access tank and clear viewing window

M18 FUEL 66MM CIRCULAR SAW FOR WOOD AND PLASTICS

AVAILABLE  
SEPTEMBER

CUTS 750 PIECES OF 90MM X 45MM PINE STUD ON **ONE 12.0AH BATTERY CHARGE**

FEATURES:

- The M18 FUEL™ Circular Saw delivers the power to rip cut at the same feed rate of an equivalent AC circular saw - with the ability to cut 750 pieces of 90mm x 45mm pine stud on one 12.0Ah battery charge
- Next Generation POWERSTATE™ Brushless Motor: This is Milwaukee®'s most powerful motor utilizing higher grade magnets and 175% more copper vs. previous motors
- Next Generation REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- New REDLITHIUM-ION™ High Output 12.0 Ah battery pack provides superior pack construction, electronics and fade-free performance to delivers the most work per charge than any other Milwaukee battery pack
- 190mm blade which gives a 66mm depth of cut, enabling the saw to cut three stacked OSB boards
- Durable metal rafter hang hook for workspace management and safety
- Vacuum adaptor supplied fits directly to all Milwaukee® dust extractors
- Magnesium shoe reduces weight and maximises durability
- Integrated LED light for workspace illumination
- 56° bevel capacity

M18 FUEL ONEKEY TABLESAW

DELIVERS THE **POWER TO RIP CUT AT THE SAME FEED RATE** OF AN EQUIVALENT AC SAW

FEATURES:

- The M18 ONEKEY™ FUEL™ Table Saw delivers the power to rip cut at the same feed rate of an equivalent AC saw. With the ability to cut 190 meters of 19 mm OSB board on one 12.0 Ah battery charge.
- Next Generation POWERSTATE™ Brushless Motor: This is Milwaukee®'s most powerful motor utilizing higher grade magnets and 175% more copper vs. previous motors
- Next Generation REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- New REDLITHIUM-ION™ High Output 12.0 Ah battery pack provides superior pack construction, electronics and fade-free performance to delivers the most work per charge than any other Milwaukee battery pack
- Rack and pinion sliding fence allows the fence to be adjusted accurately and easily from the front of the saw giving 622 mm of rip capacity
- 210 mm blade allows 63 mm depth of cut at 90 degrees
- ONE-KEY™ tool tracking & security offers a cloud-based inventory management platform that supports both location tracking and theft prevention
- Quick change guard and riving knife allows the user to remove and adjust the riving knife and guard without the need to remove the throat plate
- Integrated carry handle allows easy transportation on and off the jobsite
- On board storage for all table saw attachments
- Vacuum adaptor supplied fits directly to all Milwaukee® dust extractors

TSS 1000

FEATURES:

- Table Saw stand for the M18 FTS210 - light weight of only 6.63 kg

**NEW**

**£ 489.00** EXCL. VAT **£ 586.80** INC. VAT

M18 FJS-502X | ART.# **4933464728** (Also available as a bare unit)

## M18 FUEL TOP HANDLE JIGSAW

AVAILABLE  
OCTOBER

### FEATURES:

- Milwaukee® designed and built brushless POWERSTATE™ motor for fast cutting, long tool life and up to 32m in 19mm OSB
- REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- REDLITHIUM-ION™ battery pack provides superior pack construction, electronics and fade-free performance to deliver more run time and more work over pack life
- Milwaukee® patented FIXTEC blade clamp for fast and easy blade change
- Keyless bevel facility on the base plate allows for adjustment between 0 - 45°
- Five stage pendulum action for increased cutting performance
- Dust blower keeps the cut line free of wood dust
- Integrated LED light for workspace illumination
- Detachable soft shoe avoids marks and scratches when cutting soft materials
- Flexible battery system: works with all Milwaukee® M18™ batteries

**5 PC SET SUITABLE FOR APPLICATIONS IN WOOD AND METAL.**  
ART.# 4932345825

M18 FPM-OX | ART.# **4933459719** (Available as a bare unit only)

## M18 FUEL PADDLE MIXER

AVAILABLE  
AUGUST

### FEATURES:

- Thanks to the POWERSTATE™ brushless motor it has the power to mix heavy compounds, such as concrete and mortar
- REDLINK PLUS™ intelligence system delivers an advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- REDLITHIUM-ION™ battery pack provides superior pack construction, electronics and fade-free performance to deliver more run time and more work over pack life
- Ultimate speed control: 3 different ways of controlling speed for clean and consistent mixes (8-speed setting dial, variable speed trigger and a lock on button)
- 180° adjustable handle with 16 adjustable settings for user to optimise the handle position based on preference and comfort
- M14 tool reception
- Brightest LED workspace illumination
- Flexible battery system: works with all Milwaukee® M18™ batteries
- Kitted with 150mm paddle extension (M14)

**REDLITHIUM-ION™**

**REDLITHIUM-ION™**

M18 BLCS66-502X | ART.# **4933464591** (Also available as a bare unit)

## M18 BRUSHLESS 66MM CIRCULAR SAW

AVAILABLE  
OCTOBER

### FEATURES:

- M18 Brushless circular saw with a 190 mm blade giving a 66 mm depth of cut, this capacity enables the saw to cut three stacked 19 mm OSB boards
- REDLINK™ overload protection electronics in tool and battery pack deliver best in class system durability
- REDLITHIUM-ION™ battery pack provides superior pack construction, electronics and fade-free performance to deliver more run time and more work over pack life
- Durable metal rafter hang hook for work space management and safety
- Vacuum adaptor supplied fits directly to all Milwaukee® dust extractors
- Pressed aluminium shoe for maximum durability
- Integrated LED light for workspace illumination
- 50° bevel capacity with a 46 mm depth of cut
- Flexible battery system: works with all Milwaukee® M18™ batteries

**REDLITHIUM-ION™**

**REDLITHIUM-ION™**  
HIGH OUTPUT BATTERY TECHNOLOGY

**NEW**

**£ 369.00** EXCL. VAT **£ 442.80** INC. VAT

M18 BOS125-502B | ART.# **4933464230** (Also available as a bare unit)

## M18 125MM RANDOM ORBITAL SANDER

AVAILABLE  
AUGUST

### FEATURES:

- Milwaukee high performance motor delivers 14000 to 24000 sanding strokes per minute for faster material removal
- Variable speed wheel with six speed settings allows the correct speed to be set for different types of material
- Dust extraction box with internal filter keeps dust contained and managed
- Universal hook and loop sanding pad allows easy changing of sanding discs
- Light weight - only 1.6 kg
- Vacuum adaptor supplied fits directly to all Milwaukee® dust extractors
- REDLITHIUM-ION™ battery pack provides superior pack construction, electronics and fade-free performance to deliver more run time and more work over pack life
- Flexible battery system: works with all Milwaukee® M18™ batteries

## ADAPTS

TRUEVIEW™ offers professionals the ability to bring light directly to their work as well as control beam intensity and direction for greater productivity on the jobsite.

## PERFORMS

Through the use of high quality LEDs, Milwaukee® designed optics, and REDLITHIUM-ION™ battery packs, TRUEVIEW™ lights shine brighter and last longer.

## SURVIVES

Reinforced, impact resistant housings and lenses stand up to the challenges of industrial use, and superior temperature management protects LEDs throughout their life.

## NEW

### M18 TAL-0 TRADESMAN AREA LIGHT

ART.# 4933464134

**£199.00** EXCL. VAT **£238.80** INC. VAT

#### FEATURES:

- TRUEVIEW™ high definition lighting with 2,200 lumens of light output in Area mode and 1,000 lumens in Flood mode.
- Advanced LED technology provides 360° of area light, while an independent array of LEDs on the side provide 90° of task lighting
- Compact design allowing for one-handed transport on the jobsite, with a built-in carry handle
- Impact polycarbonate lens design that is impact and chemical resistant, delivering superior impact durability
- Equipped with a 11 cm self-centering metal hook, users can hang the light overhead on studs and piping
- Low battery indicator, light flashes when battery pack is low on charge
- Flexible battery system: works with all Milwaukee® M18™ batteries

## NEW

### HOBL 7000 HIGH OUTPUT BAY LIGHT 110V

ART.# 4933464161

**£269.00** EXCL. VAT **£322.80** INC. VAT

#### FEATURES:

- 7700 Lumens of even light output for best jobsite illumination (110 Lumens/Watt)
- Impact resistant polycarbonate lens withstands drops from up to 2,7 m
- Integrated wiring terminal accepts voltages from 90–280 V, allows easy wiring and stringing of multiple lights
- Wire strain relief accepts cables up to H07RNF 3 x 2,5 mm²
- Spring-loaded cable retention allows easy adjustment of installation height with 1,2 m steel hanging cable
- 4 m AC power cord for out of the box operation
- Conical lens design and small footprint allow simple storage and safe stacking of up to 3 units

## NEW FEATURES COMING SOON

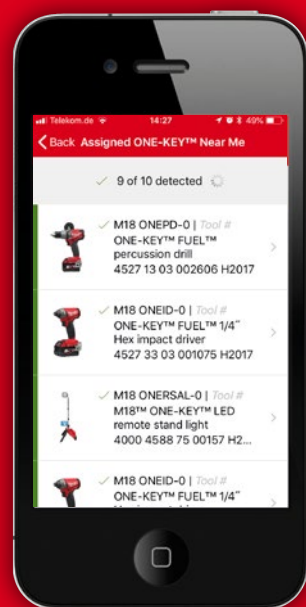

### SELECT PLACE TYPE

**Project/Job** – This is any construction site or regular service call the contractor wants to set up.

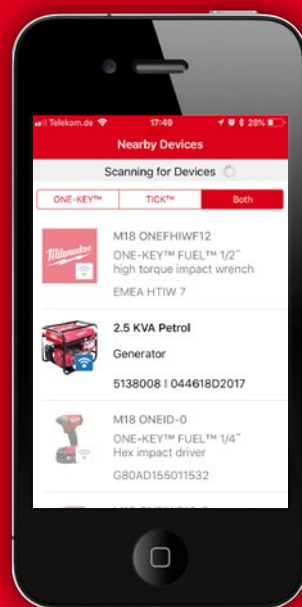

**Home Base** – This is any place where items live when they're not in the field (warehouse, lock up, garage)

**Vehicle** – This is any vehicle where tools are stored.

### PERFORM TOOL AUDIT

"Tool Audit" is a new feature available to ONE-KEY™. The user will be able to run a Bluetooth® scan for Ticks and ONE-KEY™ tools that are assigned to that specific place. During the scan, ONE-KEY™ will be able to separate the tools that haven't been found during the search from the ones that have.

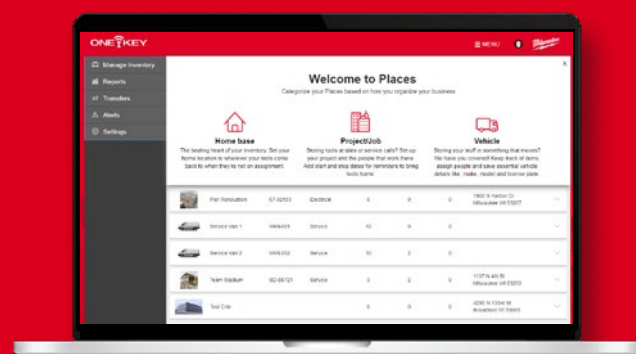

### NEARBY DEVICES

See your Tools and TICK's in nearby devices. As part of the Places Management update, a user can now clearly see which tools and ticked items are within the 30m Bluetooth® range of their device giving them an instant overview of their inventory.

### INVENTORY MANAGEMENT ONLINE!

ONE-KEY™ is designed for both mobile and office use. For the office user, maximise your productivity by using the online ONE-KEY™ portal and gain access to the full power of Inventory Management. Here you will have access to more features and have greater control over all of your assets, account set-ups and security settings

To unlock ONE-KEY™'s full features and benefits, visit us online at [www.milwaukeekeetool.eu/onekey](http://www.milwaukeekeetool.eu/onekey).

### POWER THROUGH CONNECTIVITY

Get more out of your tools than you ever could before. Customise, track and manage any ONE-KEY™ compatible tool.

#### SECURITY

Lock your tool and disable remotely

#### TRACKING

Track your tool's location from anywhere

#### CUSTOMISATION

Customise your tool by dialling in performance

#### REPORTING

View tool usage and performance data

DOWNLOAD THE ONE-KEY™ APP FOR FREE ON THE APP STORE OR GOOGLE PLAY STORE

# MILWAUKEE® CARBIDE TECHNOLOGY

## CUT LONGER. CUT MORE. CUT FASTER.

MILWAUKEE® continues to deliver ground-breaking cutting solutions for the jobsite with the introduction of Hole Dozer™ with Carbide Teeth and the new Torch Carbide Sawzall Blade, the latest additions to the Carbide cutting range. Building on the popular Hole Dozer™ bi-metal product and Ax Carbide Blade, these new hole saws and Sawzall blades provide 50X life in extreme abrasive material applications and deliver the longest life in a wide variety of metals, vastly outperforming standard bi-metal hole saws, Sawzall blades and other similar carbide-tipped solutions.

THE **TORCH**™  
CARBIDE TEETH

**50X**  
LIFE

**FASTEST CUTS**  
IN CAST IRON

LONGEST LIFE IN THICK METALS.

**CUTS THROUGH:**

Cast Iron, Stainless, Boron, Angle Iron, Black Pipe

The TORCH™ with Carbide Teeth has been engineered to deliver extreme life and unmatched versatility in thick & extreme metal cutting applications. This blade delivers up to 50X life over standard blades. The TORCH™ with Carbide Teeth tackles a wide variety of metal materials ranging from black pipe and angle iron to cast iron, stainless steel & high strength alloys. Having 25% more carbide per tooth than other carbide blades and an optimised tooth design delivers extreme life in metal cutting applications.

LONGEST LIFE IN  
THICK METALS.

**CUTS THROUGH:**

Stainless, Wood, Nails, Fiberglass, Plaster, Cement Board and More

Milwaukee® HoleDozer™ with Carbide Teeth Hole Saws provide 50X Life in extreme multi-material cutting applications when compared to bi-metal Hole Saws while cutting in high RPM. Built utilising a tough carbide grade combined with a durable 4TPI design, yielding the best tooth durability and longest life in Stainless Steel, Abrasive Materials and Fastener Embedded Wood. Cutting depth is 1.62" allowing clearance to handle cuts in all materials. With a Thermoset Coating to reduce friction and drag during cutting, users benefit from faster cutting and increased cordless efficiency. Slug removal is made easy with the Plug Jack™ T-Slot. Plug Jack™ enhances user productivity by providing best access and leverage to remove material slugs. Hole Dozer™ with Carbide Teeth are made in the USA.

## MILWAUKEE BOLT CUTTERS

**EXTENDABLE ARMS** FOR UP TO **30%  
MORE CUTTING POWER**

Milwaukee Tool continues to expand their Hand Tool offering with the addition of Bolt Cutters. Available in 360MM and 610MM, the new bolt cutters are designed with forged steel blades and bolts that won't loosen – translating to more cuts and longer life. Also included in the line-up are two adaptable bolt cutters with extendable arms, allowing the user to extend the arms for more power and versatility.

# GAME CHANGING HAND TOOLS

The launch of our revolutionary PACKOUT™ modular storage system in February 2018 was the most anticipated introduction so far in the Milwaukee® hand-tool range and really showcased the tremendous growth this category has seen over the past 4 years. Indeed, with now over 400 hand tools in the range we can clearly say that we are the fastest growing manufacturer in this industry.

It is our drive for disruptive innovation and our trade focussed spirit that have got us there, with one single objective in mind; giving our customers the best possible platform to get the job done.

OVER  
**400**  
HAND TOOLS  
IN THE RANGE

**INKZALL™ MARKERS AND PENS**  
**PRECISION AND DURABILITY IN THE HARSHTEST CONDITIONS**
