Dear Milwaukee® Revolutionaries,

Who else is still secretly singing those songs from when you were a kid now in 2019? I have to admit that Starship's notorious 80's song "We built this City..." inevitably came to mind when working on Milwaukee's 2019 call for action to Take Back The City, where trying to haul around corded and even large cordless tools is simply not an option anymore.

When City Portability without sacrificing capability is a priority only Milwaukee® M12™ tools allow you to carry less and do more. M12™ offers over 75 good reasons to maximize your productivity by being compact, ergonomic, and lightweight but still capable of performing some of the most heavy-duty jobsite applications you typically only trust 18V to do. Apart from M12 FUEL™ which leverages the same M18 FUEL™ technologies in a compressed and compact format, another great example is our brand-new TRUEVIEW™ high definition M12™ Stand Area Light. At only 3.4kg carry-weight it expands rapidly to 1.7m high and delivers up to 1400 Lumens of light output to maximize mobility in an urban setting. Milwaukee® is a rapidly expanding lighting provider with the widest and deepest range of trade-only-focused LED lighting solutions for all of your jobsite environments.

There are over 400 Milwaukee® purpose-designed hand tools available including the new versatile, super-compact 3m/10ft metric/imperial dual printed starter-tape which features a 20 Lux LED light for the odd inspection task. Also check out the new 5/8m Autolock tape that locks automatically at your chosen tape length, or cut-out any blade tear and wear frustrations with the STUD tape featuring EXO360 blade technology which wraps strong, protective nylon coating 360° around the blade to give you the durability you demand when on the move.

See how just one Torch™ Carbide Sawzall® Blade cuts seven cars in half proving its superior life in cutting thick metal materials such as cast iron, stainless steel, boron, angle iron and black pipe. Arm yourself with the Carbide Hole Dozer™ saw to cut 2X faster in high speed through nail embedded wood, stainless steel, cement board, fiberglass and plaster, vastly outperforming standard bi-metal hole saws. The electricians, HVAC and Industrial Kitchen installers amongst the readers will applaud the new Shockwave™ Impact Duty™ Step Drill Bits. The combination of an optimized SHOCKZONE™ shank, Titanium Aluminum Nitride coating, and Rapid Strike™ tip make these step bits the longest-lasting and fastest-cutting impact step bits available for use in impact drivers and cordless drills.

Whether on foot, by bus, taxi or on the tube, get on the move with the new Milwaukee® PACKOUT™ slim organizers and duffel bags which make PACKOUT™ the most versatile and durable storage system yet. Now with 12 distinct modules of compact and full-sized hard-cases incl a trolley and soft-sided totes that easily stack and lock together with an intuitive cleat-based attachment mechanism, allowing you to custom-scale your transportation needs in literally a hundred different ways.

Gear yourself up in the 8th season of Milwaukee® M12™ heated jackets and hoodies which feature faster heating technology, garment improvements for improved wind/water resistance, better heat retention and new mobility gussets. A new site-tested hybrid puffer jacket features a ripstop polyester material that provides a lightweight, compressible design that you can use as an outer shell or a mid-layer.

Mix and match from over 75 cordless M12™ portable productivity solutions with over 145 performance driven, trade-focused M18™ tools system-wide on our dual voltage charging platform. We have reset the industry standard once again with our M18 FUEL™ next breakthrough technologies—stepped-up POWERSTATE™ brushless motors and REDLINK PLUS™ intelligence electronics powered by M18™ HIGH OUTPUT™ REDLITHIUM-ION™ batteries. Milwaukee® continues to target the most demanding city jobsites with new M18 FUEL™ tools to replace AC, petrol and pneumatic tools.

The industry's first 45mm capacity 18V SDS MAX combi hammer delivers the power of corded with 11J of impact energy and the portability of a DC tool. New HIGH OUTPUT™ technology delivers 80% more power whilst drilling up to 60% faster and 75% longer than the first generation and chips ½ a ton of concrete with one M18™ HIGH OUTPUT™ 12.0Ah REDLITHIUM-ION™ battery. The new AUTOSTOP™ electromagnetic clutch prevents over rotation in case of bit lock-up on rebar, thus making it the safest SDS MAX hammer Milwaukee® has ever made, and through ONE-KEY™ you can track, manage, and secure this SDS MAX hammer as an extra layer of protection to prevent theft and tampering.

Smarter than your average drill the 3rd generation of more compact and powerful ONE-KEY FUEL™ Drills enable the user to adjust the Anti-Kickback sensitivity settings universally and by task to maximize user control in bind-up situations. Likewise, the new faster, more compact and higher torque ONE-KEY FUEL™ Impact Driver adds an intelligent self-tapping screw mode that senses when the fastener is seated and prevents it from stripping.

The new ergonomic M18 Fuel barrel grip jigsaw combines superior, sustained blade speed vs. a 700W AC saw when cutting hard-wood with the accurate, clean and low vibration-controlled workmanship you expect, facilitated by 6 variable speed settings and an auto-controlled start mode that allows the tool to start up slow and ramp up to full 3500spm when a load is detected.

The final breakthrough lies in what power it all: REDLITHIUM-ION™. Our new M18™ HIGH OUTPUT™ release is a REDLITHIUM-ION™ step-up technology utilizing a physically larger, higher power cell design with new electronics that allow higher energy flows and an optimized pack construction for durability, power and temperature management. This remains fully M18™ system compatible and allows you to maximize your productivity and minimize your cost of ownership because when it's M18™ it fits. Sharing in principal the same technology as the 12.0Ah HIGH OUTPUT™ battery the new M18™ HIGH OUTPUT™ 3.0Ah REDLITHIUM-ION™ pack delivers up to 50% more power under load with similar run-time to standard 3.0Ah packs and significantly more run-time than existing 2.0Ah compact batteries. When ergonomics is your priority, the new HO 3.0Ah pack may become your preferred pack over your existing 3.0Ah and 4.0Ah packs in compact tools.

Lastly let us reward you for joining the Milwaukee® cordless revolution by joining the new Milwaukee® Heavy Duty Club later this year. And maybe you will also find yourself singing "We built this City, We built this City on rock and roll" - doesn't everyone secretly love this song?

Oliver Lerch
Vice President – Product Management Milwaukee®

NEW

M18 ONEKEY™ PERCUSSION DRILL | ART.# 4933464528 (Not available as a bare unit)

M18 ONEKEY™ PERCUSSION DRILL

FEATURES:

- Higher power efficiency under load - outstanding torque of 135 Nm
- Extreme compact design of 175 mm length for access into tight spaces
- Advanced heavy duty chuck providing increased bit grip

- Connect via Bluetooth® with the Milwaukee® ONE-KEY™ app
- Customise anti-kickback control via ONE-KEY™ app
- ONE-KEY™ tool tracking & security offers a Cloud-based inventory management platform that supports both location tracking and theft prevention
- Save up to 4 custom settings to the tools memory for fast selection on the jobsite

- Configure to any application choosing optimum tool settings for repeatable precision
- Control speed, torque, start and end speeds, anti-kickback functions and LED
- All metal reversible belt clip to hang your tool quickly and easily
- Flexible battery system: works with all Milwaukee® M18™ batteries

M18 8 KG SDS-MAX DRILLING AND BREAKING HAMMER

FEATURES:

- The most productive SDS-Max hammer Milwaukee® have produced, delivering AC style power (11.0 J blow energy (EPTA)) with the flexibility of the cordless M18™ platform
- Next generation POWERSTATE™ brushless motor and REDLINK PLUS™ intelligence system
- ONE-KEY™ tool tracking & security offers a cloud-based inventory management platform that supports both location tracking and theft prevention
- New REDLITHIUM-ION™ HIGH OUTPUT™ 12.0 Ah battery pack provides superior pack construction, electronics and fade-free performance to deliver the most work per charge than any other Milwaukee® battery pack
- Trigger lock on prevents users from having to hold trigger during long periods of chipping applications
- Large anti-vibration back handle supports two handed drilling applications whilst minimising vibration exposure
- Anti-vibration side handle for lower vibration exposure (9.4 m/s² vibration drilling and 7.8 m/s² vibration chiselling)
- Service light indicator illuminates when tool requires servicing
- Supplied with 1 x REDLITHIUM-ION™ HIGH OUTPUT™ 12.0 Ah battery pack, M12™-M18™ fast charger and kitbox

MILWAUKEE®: DRIVING THE CORDLESS JOBSITE

THE MOST DEMANDING CITY JOBSITES RELYING ON MILWAUKEE® TOOLS

WE HAVE BEEN KEEPING UP TO SPEED WITH SOME OF THE KEY CONSTRUCTION PROJECTS IN LONDON WHERE HIGH OUTPUT™ CORDLESS MILWAUKEE® TOOLS ARE BEING UTILISED. OUR JOB SITE SOLUTIONS TEAM OFFER SITES ADVICE ON HOW TO INCREASE PRODUCTIVITY AND IDENTIFY COST SAVINGS. THIS ARTICLE IS TO SHOWCASE THE LATEST MILWAUKEE® CORDLESS TOOLS ON THE JOBSITE AND HEAR WHY THEY'RE SO VALUABLE.

“OUR ULTIMATE AIM IS TO TURN THE JOBSITE CORDLESS”

WILLMOTT DIXON, ELTHAM CINEMA

This project will boast six screens, two restaurants and a sky bar. The construction work is taking place in large, dark areas without natural light so Milwaukee® TRUEVIEW™ is the perfect solution to light the jobsite. As TRUEVIEW™ product is cordless, workers can move the lighting quickly and easily across all rooms, whilst avoiding trip hazards.

Joe Foley, Willmott Dixon *“We chose Milwaukee® lighting because of the light spread, the battery life and how good it is at lighting up large auditoriums.”*

COSTAIN-SKANSKA, EUSTON

Costain-Skanska are demolishing retail estate around the existing Euston station. There is a huge construction site surrounding the station to prepare the area for development work. Heavy duty demolition work is required in remote locations and our Milwaukee® M18™ 12AH HIGH OUTPUT™ batteries and tools are required to get the job done.

Ben Lennon, Costain-Skanska *“We’re using Milwaukee® cordless tools. The reason we chose them is we need the flexibility to travel around the site and don’t have to worry about transformers or generators. We can also go off to various locations with the confidence the batteries will last the whole day.”*

COSTAIN-SKANSKA, ACTON

Similar to the demolition work at Euston, Costain-Skanska have been taking down warehouses to enable development work at Acton. This is a large, demanding jobsite where the Milwaukee® M18™ HIGH OUTPUT™ product range and battery technology is required.

Aidan Marchetti, Costain-Skanska *“99% of the site is cordless, for all our team we are using the battery powered Milwaukee® tools to keep the site user friendly and low emissions.”*

IMTECH, MOUNT PLEASANT

This famous mail centre in London is undergoing extensive refurbishment work with Imtech tasked with the project. They’re using a number of Milwaukee® M18™ cordless products and TRUEVIEW™ lights to maximise safety levels on their site.

Hitesh Varsani, Imtech *“We’re using cordless tools to minimise trips hazards from trailing leads and to minimise NVH - that’s why we chose Milwaukee®.”*

DANE ARCHITECTURAL, 22 BISHOPSGATE

22 Bishopsgate is a construction project in Central London which will have one of the highest accessible working floors in the Capital once complete. In a multi-floor working environment like this Milwaukee® cordless tools are vital to maximise productivity and site safety.

Edward Wilson, Dane *“We’re using Milwaukee® tools as part of our set up. The site’s 64 stories high and we find it hard to move between the floors quickly. When we do get to a floor we only sometimes have 10 minutes work and we don’t want to spend 10 minutes setting up cables.”*

M18 FUEL BODY GRIP JIGSAW

CUTS UP TO 32M
IN 19MM OSB ON
A 5.0AH PACK

FEATURES:

- Milwaukee® designed and built brushless POWERSTATE™ motor for fast cutting and long tool life and REDLINK PLUS™ intelligence system
- Milwaukee® patented FIXTEC blade clamp for fast and easy blade change
- Five stage pendulum action for increased cutting performance
- Ambidextrous on / off switch allows user to turn the tool on in any position
- 6-speed settings with auto controlled start mode allows the tool to start slow and ramp up to full speed when load is detected
- 3500 spm delivers smooth cuts, minimised chipping and vibration
- Supplied with 2 x 5.0 Ah REDLITHIUM-ION™ batteries, M12™ - M18™ fast charger, HD box, 1 x blade, dust extraction adapter, dust cover, splinter guard, soft shoe

75 X 4 MM T 144 D FAST CUTTING JIGSAW BLADE FOR WOOD, 5 PCS

M18 BPPH-401 | ART.# 4933464963 (Also available as a bare unit - 4933464961)

M18 BACK PACK FLUID PUMP HARNESS

FEATURES:

- SWITCH TANK™ modular design : one base to be used with different tanks for maximum versatility
- Chemical sprayer tank for pesticides/fertilizers/treatments/herbicides/fungicides/insecticides/de-icing agents and more
- Water tank for water delivery for concrete cutting and coring application and washing slurries, areas and equipment
- 120 PSI (8.3 Bar) pump pressure
- Features adjustable pressure selection dial to best suit user requirements
- Supplied with 1 x 4.0 Ah REDLITHIUM-ION™ battery pack, M12™-M18™ charger

NEW

£ 169.00 EXCL. VAT **£ 202.80** INC. VAT

M18 BACK PACK FLUID PUMP CHEMICAL SPRAYER

FEATURES:

- Chemical sprayer tank for pesticides/fertilizers/treatments/herbicides/fungicides/insecticides/de-icing agents and more
- Semi-transparent tank with measuring scale to know how much liquid is inside the tank
- Comfortable rubber gripped spray wand handle with ability to lock-on for larger jobs
- Spray wand storage to avoid damage during transport
- Integrated strainer prevents debris from entering the tank
- Adjustable spray pattern - from cone to straight stream for end user preference and application. Up to 7.6 m spray distance
- Not supplied with battery or charger

NEW

£ 169.00 EXCL. VAT **£ 202.80** INC. VAT

M18 BPPH-WST | ART.# 4933464965

M18 BACK PACK FLUID PUMP WATER SPRAYER

FEATURES:

- Water sprayer tank for efficient water delivery for concrete cutting and coring applications. Also useful for washing up slurry's, areas and equipment
- Semi-transparent tank with measuring scale to know how much liquid is inside the tank
- Carry handle lid with wide mouth makes easy transport and pouring of water into tank
- Replaceable hose with standard garden hose quick coupling and spray nozzle
- Integrated strainer prevents debris from entering the tank
- Not supplied with battery or charger

RED LITHIUM-ION™ 2.0 / 3.0 / 4.0 / 5.0 / 6.0 / 9.0 Ah / 12.0 Ah

TRUEVIEW™ HIGH DEFINITION LIGHTING

ADAPTS

TRUEVIEW™ offers professionals the ability to bring light directly to their work as well as control beam intensity and direction for greater productivity on the jobsite.

PERFORMS

Through the use of high quality LEDs, Milwaukee® designed optics, and REDLITHIUM-ION™ battery packs, TRUEVIEW™ lights shine brighter and last longer.

SURVIVES

Reinforced, impact resistant housings and lenses stand up to the challenges of industrial use, and superior temperature management protects LEDs throughout their life.

M12 STAND LIGHT

FEATURES:

- TRUEVIEW™ high definition lighting
- Twelve high performance LEDs provide 1400 Lumens on high light output
- Impact resistant adjustable head with highly durable polycarbonate lens to withstand drops up to 3 m
- Head can be rotated 210° vertically and pivoted 270° horizontally to have the best perfect workplace illumination
- Protective guard secures the head and lens when the light is collapsed for storage or transport
- Extendible mast which reaches from 0.91 m to over 1.72 m to light up work spaces
- Up to 10 hrs run time with an M12 B4 battery pack
- Low battery indicator - light flashes when battery pack is low

CITY PORTABILITY

TAKE BACK THE CITY WITH MILWAUKEE®

REGULAR CHALLENGES THAT TRADESPEOPLE FACE IN THE CITY: LONG DELAYS. CONGESTION. TRANSPORTATION OF HEAVY CORDED TOOLS. LIMITED MANOEUVRABILITY. LOST PRODUCTIVITY.

Working within a city can present major hurdles with traditional solutions, preventing you from being able to travel easily with all your gear. How can you travel with everything you need when driving to site is not an option? Hauling around corded, or even larger cordless tool is not always possible. When City Portability is a priority you need another solution, one that doesn't sacrifice capability, and is manageable on a day to day basis.

The Milwaukee® M12™ platform helps you escape these problems. M12™ tools are compact, ergonomic, and lightweight, all whilst remaining capable of completing some of the most heavy-duty jobsite applications. Combined with Milwaukee® storage systems such as PACKOUT™, you will be able to comfortably transport everything you need for a day's work. The compatibility of the M12™ battery across 75+ tools also means you can streamline your power solution, with a couple of batteries and a rapid charger giving sufficient life to get you through the day.

UPGRADE. OUTWORK. OUTLAST.

PORTABLE PRODUCTIVITY. TRADE FOCUSED. SYSTEM WIDE.

ONE SYSTEM OVER 75 TOOLS

M12 FUEL

6.0 Ah, 4.0 Ah, 3.0 Ah, 2.0 Ah

M12: INNER CITY SOLUTION

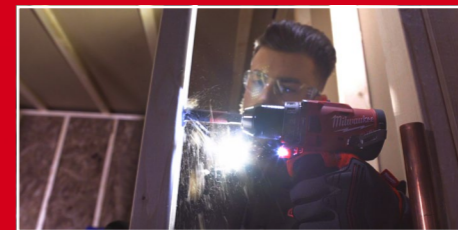

PORTABLE.

The compact nature of the Milwaukee® M12™ system makes it portable in all situations. Stowed into the Packout™ system you and your tools can go almost anywhere.

POWERFUL.

Despite the form factor of M12™ tools you have access to all the power you need. Solutions within the FUEL™ range offer maximum power at minimum weight.

COMPACT.

Compact tools can be used for longer, and carried further. M12™ tools allow you to eliminate the limitations of heavy equipment, without sacrificing power.

ERGONOMIC.

Awkward applications are easy to find on the jobsite. Whether it is overhead or in a hard to reach area, the ergonomically designed M12™ tools can help you complete the application with ease.

ADAPTABLE.

The adaptability of the M12™ system means that wherever you find yourself you can have the correct solution ready to go. With 75+ tools on the platform any job can be conquered.

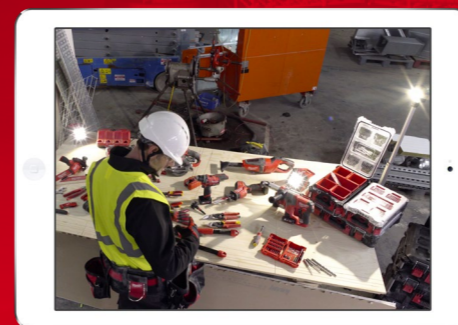

PRODUCTIVE

Maximising productivity brings many benefits. The power, lightness, and adaptability of the M12™ platform allows you to get more done in less time.

WATCH THE VIDEO TO FIND OUT HOW ALL OUR TRADESMEN EXPLOITED THE BENEFITS OF THE MILWAUKEE® M12™ PLATFORM.

Our Electrician used the M12FID, M12CH and M12CHZ.

Our Carpenter used the M12 FPD, M12 AL and M12 JS.

Our Plumber used the M12 FPD, C12 PC and M12 FCOT.

Our HVAC installer used the M12 FIR14 and M12 SAL.

PACKOUT™ TROLLEY BOX

FEATURES:

- Constructed with impact resistant polymers for jobsite durability
- 113 kg weight capacity
- Industrial grade extension handle
- Oversized Ø 228 mm all-terrain wheels
- IP65 rated weather seal to keep out rain and jobsite debris
- Metal reinforced corners
- Metal reinforced locking point
- Mounting location for the ONE-KEY™ TACK

PACKOUT™ TOTE TOOLBAGS

FEATURES:

- 1680 ballistic material construction
- Impact resistant moulded base
- All metal hardware
- Durable overmoulded handle

GAME CHANGING HAND TOOLS

The launch of our revolutionary PACKOUT™ modular storage system in February 2018 was the most anticipated introduction so far in the Milwaukee® hand tool range and really showcased the tremendous growth this category has seen over the past 4 years. Indeed, with now over 400 hand tools in the range we can clearly say that we are the fastest growing manufacturer in this industry.

It is our drive for disruptive innovation and our trade focussed spirit that have got us there, with one single objective in mind; giving our customers the best possible platform to get the job done.

OVER **400** HAND TOOLS IN THE RANGE

MILWAUKEE® TORCH CARBIDE

CUT LONGER. CUT MORE. CUT FASTER.

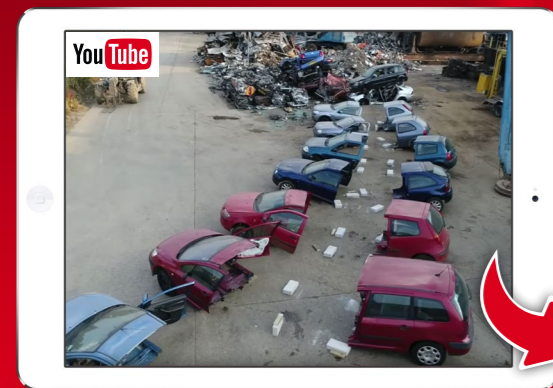

MILWAUKEE® continues to deliver ground-breaking cutting solutions for the jobsite with the introduction of the new Torch™ Carbide Sawzall® Blade, the latest additions to the Carbide cutting range. Building on the popular Ax™ Carbide Blade, this new blade provide 50X life in extreme abrasive material applications and delivers the longest life in a wide variety of metals, vastly outperforming standard Sawzall® blades.

THE TORCH™ CARBIDE TEETH **50X LIFE** **FASTEST CUTS IN CAST IRON**
LONGEST LIFE IN THICK METALS.

CUTS THROUGH:
Cast Iron, Stainless, Boron, Angle Iron, Black Pipe

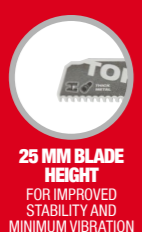

The TORCH™ with Carbide Teeth has been engineered to deliver extreme life and unmatched versatility in thick & extreme metal cutting applications. This blade delivers up to 50X life over standard blades. The TORCH™ with Carbide Teeth tackles a wide variety of metal materials ranging from black pipe and angle iron to cast iron, stainless steel & high strength alloys. Having 25% more carbide per tooth than other carbide blades and an optimised tooth design delivers extreme life in metal cutting applications.

7 CARS CUT WITH 1 TORCH CARBIDE BLADE

ENGINEERED TO DELIVER EXTREME LIFE AND UNMATCHED VERSATILITY IN THICK AND EXTREME METAL CUTTING

SHOCKWAVE IMPACT DUTY™ STEP DRILLS

SHOCKWAVE™
IMPACT DUTY

- Shockwave Impact Duty™ step drills are designed to be used with impact drivers
- The 1/4" hex shank has an optimised SHOCKZONE™ body which ensures most durability by reducing early shank breaks
- Dual spiral flute: optimised for impact drivers and for smooth drilling
- Titanium aluminium coating for 5x more life vs. standard non impact rated step drills when used in an impact driver
- Rapid Strike™ tip: quick and more accurate start without walking. Also less heat generation for longer life
- Laser engraved markings: Do not wear away with time
